"Curricuplan has been successfully implemented in our district and is proving to be an essential tool for our teachers. Creating lessons and searching the database, based on standards, are wonderfully simple tasks using Curricuplan...support for setup and maintenance has been wonderful. This is a great product that is having a direct impact on instruction. Highly recommended!"

Middle Country Central School District
Centereach, NY

Curricuplan is the solution for web based curriculum planning. Using Curricuplan, school districts design, review and share a database of high quality standards based instructional content online.

WHY SCHOOL DISTRICTS USE CURRICUPLAN...

- Create, revise and reflect on unit and lesson plans
- Collaborate district wide on curriculum development
- Share effective instructional strategies and resources
- Identify standards that have been met
- Review and approve instructional content online
- Integrate technology into the curriculum
- Track instructional plans throughout the district
- Mentor and provide resources for new teachers
- Reflect after instruction to provide feedback for revisions
